Assistant or Associate Professor of Clinical Pharmacy  
Department of Pharmacy Practice and Pharmaceutical Sciences  
College of Pharmacy, Duluth  
University of Minnesota

The University of Minnesota’s College of Pharmacy, Duluth campus (CoPD), Department of Pharmacy Practice and Pharmaceutical Sciences (PPPS) invites applications for the position of Assistant/Associate Professor (non-tenure track). Candidates who share our Department’s commitment to outstanding research, innovative teaching and leadership in the optimization of drug therapy, are encouraged to apply.

Candidates must possess a professional pharmacy degree (i.e. B.S. in Pharmacy, Pharm.D.), be licensed as a pharmacist or be eligible for licensure in Minnesota, present demonstrated scholarly activities, and have successfully completed at least a PGY-1 pharmacy residency program (or possess equivalent experience). Board certification is preferred. The candidate must have excellent teaching and communication skills.

Developing active scholarship is an expectation for this position and it is highly recommended that a significant percentage of this activity occur at or in conjunction with the practice site. Preference will be given to candidates with research foci that align with current PPPS faculty interests. These include: pain management, neurological disorders, behavioral health, pharmacogenomics of drug response, and the health of rural, indigenous and other underserved populations. Preference will also be given for candidates with an interest in teaching infectious disease content in the professional curriculum.

Didactic teaching in the Doctor of Pharmacy program relevant to acute care pharmacy topics will be required and assigned under the direction of the Department Head. Preceptorship of IPPE/APPE pharmacy students and pharmacy residents will also be required. Finally, this individual will be expected to serve on Department and College committees and engage in other service at the practice site or in the community.

The clinical practice for this position will be located at St. Luke’s Hospital in Duluth, MN and it is anticipated that the successful candidate will spend approximately 50% time in practice with focus in areas of Transitions of Care or the Emergency Department, depending on the interest and experience of the candidate.

Department of PPPS faculty are committed to our common mission to provide outstanding education, excellence in research and service to the public and other health professions. The
Department emphasizes the role of pharmacists in providing optimal pharmaceutical care to patients in rural areas and indigenous populations. PPSS faculty are dedicated to the education of Pharm. D. and graduate students who together, with our staff, work to discover, apply and distribute new knowledge to support our mission.

St. Luke’s is committed to the mission of “The Patient. Above All Else” with the vision, “To be the provider and partner of choice for the region”. Their organizational values provide the foundation of a culture to pursue the mission and vision where the patient comes first, quality is an expectation, people make it happen and everyone is treated with respect.

The University of Minnesota offers an exceptional benefits package including excellent medical, dental, disability insurance and faculty retirement programs. A competitive salary and starting package will be offered commensurate with the candidate’s education, experience and expertise.

Interested candidates are strongly encouraged to apply by August 1, 2015, for the first review; however, this position will remain open until filled.

All applicants must apply via the University of Minnesota Online Recruitment System by selecting the link below for Job ID 302261:
