ITV Policy for Cancelling/Cancelled Courses

Effective: 2003
Last Updated: November 2010

Responsible University Officer:
Senior Associate Dean for Professional Education

Policy Owner:
Office of Professional Curriculum

Policy Contact:
Director of Professional Curriculum

POLICY STATEMENT

The College of Pharmacy has one curriculum for both campuses and as such, all courses are offered on both campuses, unless there is an extenuating circumstance. The College delivers its dual-campus program primarily through interactive television (ITV). Therefore, the professional education curriculum is designed and approved by collegiate faculty to be delivered via ITV or an alternative suitable delivery mode.

Extenuating circumstances include (but are not limited to):

1. Pre-approved elective courses taught by non- College of Pharmacy programs.
2. Courses that predominately utilized experiential or applied learning experiences.
3. Courses designed in a manner that is not best suited for ITV or online delivery (i.e. small group discussions).

Exemptions to this policy will be determined by the Education Policy & Peer Review Committee (EPC). It is intended that all students will have equal access to required courses at similar levels of quality. Courses will be designed for ITV delivery unless approved by EPC. When substantive changes are made to a course, defined as a) one third or more change in content or b) change in the mode of delivery of a course, these changes must be submitted for approval by EPC.

REASON FOR POLICY

The College of Pharmacy Pharm.D. expanded into a dual-campus program beginning in the Fall 2003. A guiding principle established at that time and officially approved by the College Assembly in 2005 was, "one college, two campuses". Students are to receive the same curriculum on both campuses with equivalent learning outcomes.
